## LOCATORS

Nation United States Latitude 393736N  
State Colorado Longitude 1074934W

### Quad Code Quad Name

39107-E7 Rifle  
39107-F7 Horse Mountain  
39107-F8 Rio Blanco

### County

Garfield (CO)

### Watershed Code Watershed Name

14010005 Colorado headwaters-Plateau

## SITE DESCRIPTION

Minimum Elevation 5,600.00 Feet 1,707.00 Meters  
Maximum Elevation 8,600.00 Feet 2,621.00 Meters

### Site Description

The Rifle Hogback PCA includes the southwest facing slopes of the Grand Hogback north of Rifle, where Wetherill milkvetch is sparsely scattered in many dry, eroded washes. In this PCA, the hogback is formed of uplifted Wasatch and Ohio formations. Soils are composed of sand and clay, with some barren shale outcrops.

### Key Environmental Factors

No Data

### Climate Description

No Data

### Land Use History

No Data

### Cultural Features

## SITE DESIGN

Site Map P - Partial Mapped Date 01/19/1999  
Designer Fayette, K.K.

### Boundary Justification

This site includes five occurrences of the same species and the contiguous suitable habitat between them.

Primary Area 7,068.81 Acres 2,860.66 Hectares

## SITE SIGNIFICANCE

Biodiversity Significance Rank B3: High Biodiversity Significance

### Biodiversity Significance Comments

This site contains an excellent, good and fair occurrences of a globally vulnerable plant species.

Other Values Rank No Data

These data are a product and property of Colorado State University, Colorado Natural Heritage Program (CNHP). These data are strictly "on loan" and should be considered "works in progress". Data maintained in the Colorado Natural Heritage Program database are an integral part of ongoing research at CSU and reflect the observations of many scientists, institutions and our current state of knowledge. These data are acquired from various sources, with varying levels of accuracy, and are continually being updated and revised. Many areas have never been surveyed and the absence of data in any particular geographic area does not necessarily mean that species or ecological communities of concern are not present. These data should not be regarded as a substitute for on-site surveys required for environmental assessments. Absence of evidence is NOT evidence of absence. Absence of any data does not mean that other resources of special concern do not occur, but rather CNHP files do not currently contain information to document this presence. CNHP is not responsible for whether other, non-CNHP data providers have secured landowner permission for data collected.

**These data are provided for non-commercial purposes only.** Under no circumstances are data to be distributed in any fashion to outside parties. To ensure accurate application of data, tabular and narrative components must be evaluated in conjunction with spatial components. Failure to do so constitutes a misuse of the data. The Colorado Natural Heritage Program shall have no liability or responsibility to the data users, or any other person or entity with respect to liability, loss, or damage caused or alleged to be caused directly or indirectly by the data, including but not limited to any interruption of service, loss of business, anticipatory profits or indirect, special, or consequential damages resulting from the use of operation of the data. Data users hereby agree to hold CNHP, Colorado State University, and the State of Colorado harmless from any claim, demand, cause of action, loss, damage or expense from or related to data users use of or reliance on the data, regardless of the cause or nature thereof, and even in the event that such cause is attributable to the negligence or misconduct of CNHP.

These data are provided on an as-is basis, as-available basis without warranties of any kind, expressed or implied, INCLUDING (BUT NOT LIMITED TO) WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT. Although CNHP maintains high standards of data quality control, CNHP, Colorado State University, and the State of Colorado further expressly disclaim any warranty that the data are error-free or current as of the date supplied
